

MASTER2

Double turret slitter with a separate unwinding station

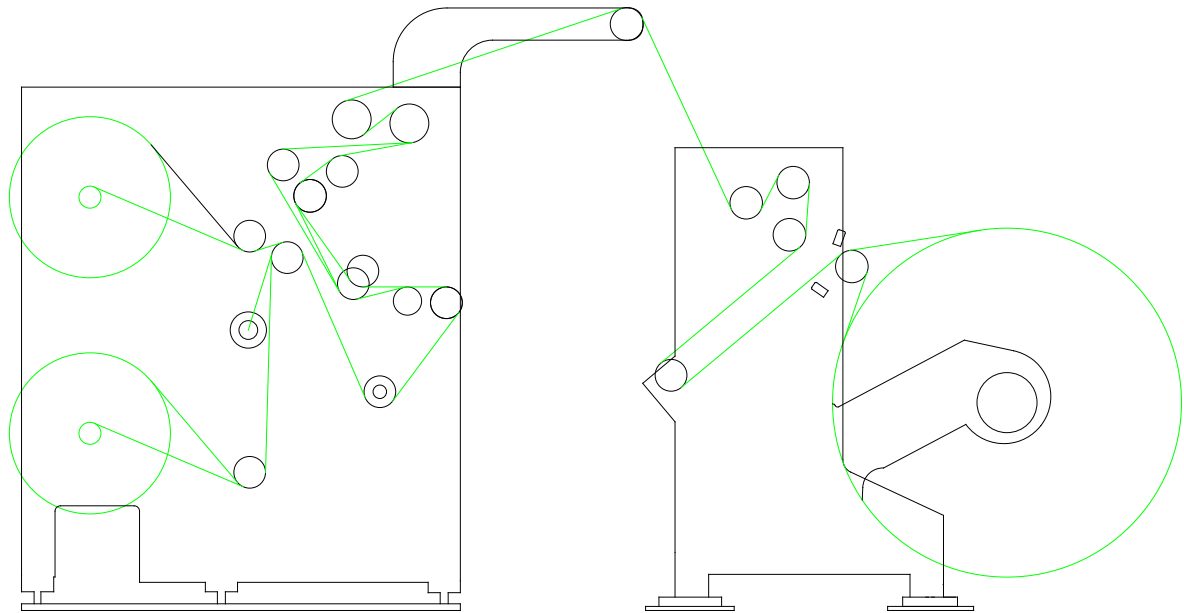

High performance machines for slitting and rewinding flexible materials

- Duplex rewind
- Automatic knife setting
- Precise tension control
- Various handling solutions
- High automation
- Advanced software solutions
- Controlling possibilities
- Intuitive Control Panel

Web width	1000/2200mm	Unwind roll diameter	1500mm
Min. web width	300mm	Unwind roll weight	2500kg
Min. slit width	50mm/25mm option	Rewind roll diameter	610/800/1000mm
Speed	800m/min	Core roll diameter	70mm, 3" / 6"

Processed materials: printed / unprinted foils (PE, PP, PA, PS, PET and other), paper, metalised films, laminates, labelstock films

MASTER2 slitter ensures clean slitting process secured with overhead run of material. The combination of local engineering and high class German components has resulted in outstanding solutions. The slitter can be readjusted and customized for various materials and needs with regards to high level of automation.

AVAILABLE EQUIPMENT:

- Duplex rewind
- Separate unwind station with overhead run of material
- Supported shaftless unwind
- Eco-friendly built, incl. reduction of overall energy consumption
- Parent roll lifting
- Pneumatic splicing table placed overll unwind station
- Web guiding system BST CLS Pro 600
- Automatic setting of rotary knives or razor blades
- Touch screen panel with memory
- Inbuilt trim vacuum system
- Automatic laser core positioning system
- Automatic pushing bar
- Automatic handling to unload finished reels
